How to apply

Please read this [important information](#) before considering applying for a Bupa Foundation grant.

Applying for a grant is easier than ever with the Bupa Foundation's new online application system, Grant Tracker. Using Grant Tracker you can register for online application and submit a research grant proposal. You will be able to select 'medical research' grant during the submission process. After each session you will be able to save your work, allowing you to come back and complete it later.

Once submitted, the system will generate a PDF copy of your application. We need one hard copy of this, including all original signatures before your grant be considered at the next grants meeting. The signed copy is required because it will form part of the research contract if you are awarded a grant. We ask that all signed copies of your application arrive at our office within 14 days of the grant round deadline.
